**DESCRIPTION OF SERVICES**

**Inpatient Detox: ASAM III.7D** Medically Monitored Intensive Inpatient provides a planned regiment of 24 hour medically directed evaluation, care and treatment for substance and mental health related disorders. These patients are at a high risk of withdrawal and require medical management to avoid the potentially hazardous consequences of discontinued use of alcohol and other drugs. Patients at this level of care are assessed to require primary biomedical psychiatric and nursing care (Average length of time in the program 3-5 days).
