Thursday 6:00 a.m. - 9:10 p.m.

FEES: Call for information

DESCRIPTION OF SERVICES

The outpatient program provides intensive treatment interventions based on the individual's needs. Services are designed for the adult individual who is in need of alcohol and/or substance abuse treatment. If an individual chooses this program, a biopsychosocial assessment will be completed by a qualified member of the staff, resulting in a recommendation for a level of care in regards to treatment ranging from partial care (5 hours, 4 days/week), IOP (3 hours, 3 days/week), or OP (3 hours, 1 day/week), which also allows for the client to be "stepped down" as they progress through their treatment. Clients are offered a structured environment, while allowing them to remain in the community.
