DESCRIPTION OF SERVICES

Supporting Children-Birth to Three - The program offers home visits for parent and child including planned activities that nurture and support children and help parents understand how their child is growing and learning. Developmental and health screening and assessments that ensure children are growing and learning are all part of the service. Children have the opportunity to enjoy classroom experiences and developmentally appropriate curriculum.

Supporting Pregnant Women - The program offers assistance and preparation for labor, delivery, and newborn care and home visits with a Pediatric Nurse to promote good health as well as nutritional guidance.

Supporting Families - The program offers opportunities for parents to work with trained staff to set goals and make plans for the future.
