To: All MDT Coordinators
From: Patrick Rivoli
Date: Updated: 9/18/2007
Ref: Wireless Internet Equipment and Internet Service for MDTs

The Warren County Mobile Data Terminal (MDT) system was enhanced in the summer of 2006 to replace its radio-based MDT communications link with faster, more reliable internet-based "air cards". Since that time, several requests have been received for information on how to purchase additional air cards for use with the Mobile Data Terminal (MDT) network. Warren County cannot officially recommend a particular vendor's product or services, but can advise as to what vendor equipment and services have been successfully used. Air cards and internet subscription plans currently in use are offered by both Verizon and Sprint. The following information can be used to order air cards and wireless internet subscription services from either vendor:

Verizon Wireless

Hardware: Verizon Wireless PC5750 PC Card (**\$49.99** or **free** with 2-year subscription)
Software: Verizon VZAccess Manager (comes on CD with above card) **
Subscription: Corporate BroadbandAccess plan (**\$49.99** per month)
Sales Rep: Lee A. Cohen, (609)472-7773, lee.a.cohen@verizonwireless.com

Sprint Mobile Broadband

Hardware: PX-500 by Pantech Wireless (**\$49.99**, **free** with mail-in rebate)
Software: Sprint Connection Manager (comes on CD with above card) **
Subscription: Mobile Broadband Connection – Unlimited Plan (**\$49.99** per month)
Sales Rep: Oswaldo Perez, 201-964-8801, oswaldo.perez@sprint.com

**** Note:** Purchase of either of the above cards will require the installation of new "dialer" software to connect the MDT to the internet. A software CD will come with the air card and the software must be installed by Warren County. Please contact Pat Rivoli to schedule the installation at 908-835-2040.

Warren County Departments (Sheriff, Prosecutor, etc.): You must order any air card or wireless internet subscription plan via Barry Smith, Warren County Information Systems at 908-475-6560.
