

## *Promoting Smart Growth*

### ***ATTEND OUR OPEN HOUSE*** ***To discuss solutions to Route 22 traffic problems***

**Monday April 27, 2009 • Borough of Alpha Municipal Building**  
**1001 East Boulevard • 908.454.0088**

6:00 PM to 8:00 PM: Open house to review study results to date  
7:00 PM: Presentation by study consultant team

*Directions: The Alpha Municipal Building is located 2 blocks west of County Route 641 (Lee Avenue) at the intersection of East Boulevard and Sampson Avenue.*

***The need for Route 22 planning is urgent.*** Over the past decade, explosive housing, commercial and retail development in southern Warren County and adjacent communities in Pennsylvania has increased travel demand along this corridor to the point where significant peak period weekday congestion occurs along portions of the roadway.

A transportation study, sponsored by Warren County, is now underway for the Route 22 Corridor. Existing and future 2035 traffic conditions have been compiled. In addition, preliminary strategies to address transportation problems on the corridor have been identified. Please attend this **Open House** to provide your input!
