

Warren County Transportation Program

Spring 2010

Dear Rider:

As you may have recently read in the newspapers, state and federal funding to the county transportation program has been significantly reduced over the past two years. Warren County is anticipating additional reductions in 2011.

As a result, transportation services will be reduced and changed as indicated below:

- There will be no transportation services on the following five days: Martin Luther King, Jr. Day, Presidents' Day, Columbus Day, Veterans Day and the Friday after Thanksgiving.
- Shopping runs will be consolidated.
- Demand-Response trips will be combined. This may result in either arriving earlier for appointments or waiting longer for pick up after appointments are completed. Also, please understand that drivers will be making additional stops on their routes to pick up riders. This may also increase the amount of time you are on the vehicles.

We have always attempted to maintain our quality transportation system with as little disruption in services as possible. A suggested fare of \$1 per trip will help lessen the impact of these funding reductions. Please understand that this is just a **suggested** fare and is **not** mandatory. Given the current economic conditions that exist for all of us, we realize many of our riders are on a fixed income. We encourage you to contribute what you can towards the cost of your trip. If unable to pay for a trip, you will still be able to access transportation services. No one will be refused a trip.

A fare box will be available on the paratransit vehicles. You may also mail your suggested fare (checks should be made payable to the Warren County Treasurer) to:

Warren County Department of Human Services
Division of Administration
202 Mansfield Street
Belvidere, NJ 07823

Thank you in advance for your help. Together, with your cooperation, we can ensure that quality transportation services will continue to be available to all Warren County residents.

If you have any questions, please contact the department at (908) 475-6080.

Sincerely,

JanMarie McDyer
